

An Integrated Approach to the Delivery of Community Health Services

Remote Desktop Instructions

To log in to the Remote Desktop host:

- Power on the viewer workstation. Click **OK** on the security notice to load the desktop
- Click **Start->Programs->Cornerstone Host**
- After the dial-up connection has been established, click **OK** on the security notice
- Enter "**csremote**" for the password, and click **OK**
- Run Cornerstone through **Start->Programs->Cornerstone**

To log out of the Remote Desktop host:

- Exit the Cornerstone application
- Click **Start->Log Off**
- Choose **Yes** to log off

!!Note!!: Please do not click "Disconnect". This will close the remote connection, but will not cleanly log you out of the host.
